

HARDI KUSUMA

Web2 Developer Interested in Web3 & AI — Junior System Analyst, BINUS University IT Division

West Jakarta, Indonesia | +62 821 1115 6935 | kusumahardi297@gmail.com | linkedin.com/in/hardi910 | github.com/hks910 | kosnection.com

PROFILE

Computer Science graduate from BINUS University (GPA 3.81/4.0) working as a Junior System Analyst on BINUS's university-wide LMS, resolving 2,000+ support tickets across bug fixing, data sync, and cross-service troubleshooting. Originally built Kosnection as a team thesis project, and now independently maintains and enhances it as a live production SaaS platform with payment integration and an AI chat feature. Published first-author usability research using the Heuristic Evaluation method. Comfortable working across users, product owners, and engineers to scope solutions, and currently interested in Web3 and AI.

EXPERIENCE

Junior System Analyst (prev. Associate System Analyst) • Bina Nusantara IT Division Mar 2024 – Present

- Handle BINUSMAYA (binusmaya.binus.ac.id), the Learning Management System used university-wide by BINUS students and lecturers.
- Design bug-fix solutions, debug system issues, and design sync logic between interconnected services.
- Design data extraction and processing workflows to support business insight and user needs.
- Handle operational ticketing and DevOps tasks, resolving 2,000+ tickets to date.
- Collaborate across users, product owners, and engineers to shape solutions, plan backlog, and test enhancements.

Scholarship Mentor, Even Semester 2023 • Bina Nusantara University Feb 2024 – Jul 2024

- Guided students 1:1 in Pattern Software Design, Scientific Computing, Calculus, OOP, and Code Reengineering.
- Developed personalized teaching strategies that improved academic performance and student confidence.

EDUCATION

BINUS University 2022 – 2026

Bachelor of Computer Science • GPA 3.81/4.00 • Magna Cum Laude

PROJECTS

Kosnection — Boarding House (Kos) Management Platform 2025 – Present

- Co-built Kosnection as a team undergraduate thesis project — a production SaaS platform for kos owners, managers, and tenants to manage properties, rooms, payments, and complaints — hosted and live at kosnection.com.
- Now independently maintains and enhances the platform post-thesis, including user login, payment integration, and an AI chat feature for real-time tenant-manager communication.
- Owns ongoing infrastructure, backend, and feature roadmap decisions for the live product.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Chairman • Zerobot Robotics Community Aug 2020 – Feb 2022

- Led a student robotics organization, managing training, budgets, and resources for robot assembly and competitions — 2nd Place (Mechatronics Day, SGU 2020), Best Presentation (Universitas Pancasila 2020), Most Innovative Idea Award (SGU 2020).

Staff, Technology & Creative Division (prev. Activist) • KMBD, BINUS University Jan 2023 – Jan 2025

- Project Manager, Yearbook 2023: owned the concept and production plan end-to-end, recruiting and coordinating a team through content and photo collection to final delivery.
- PIC (Public Relations), Buddhist Camp 2023: led content creation, registration, and sponsor outreach for the event.

Freshmen Leader • BINUS University Jul 2023 – Sep 2023

- Bridged incoming students and the event committee for the university's First Year Program.
